

Using the Zoneminder (zmNinja) app

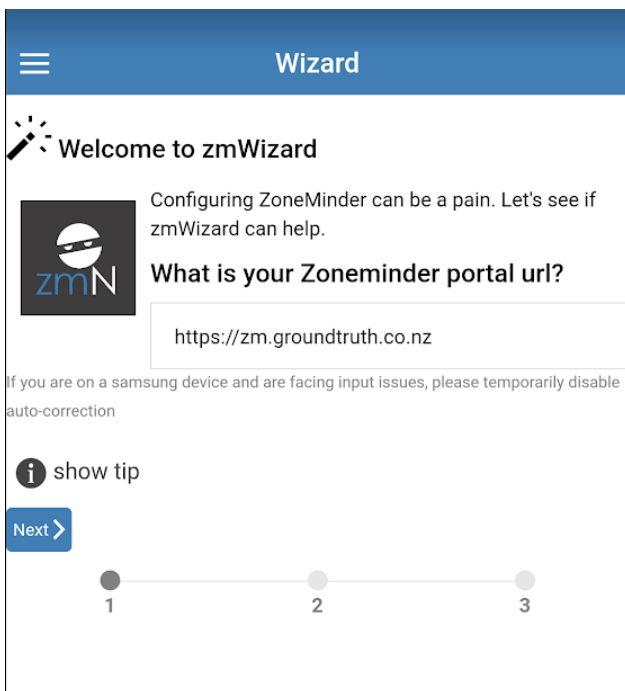

The zmNinja-pro app is available for Android and Apple and lets you view and control cameras from your phone.

Search for ZMNinja in the app stores, or use the links below:

When you open the app the first time, use the wizard to configure the app.

1. Set the Zoneminder portal URL to: <https://zm.groundtruth.nz> and click **next**

2. Set the two switches "I use authentication" and "I use ZM authentication" on, and then enter your email and password. Click **next**.

Wizard

Portal Authentication

Lets talk about how you have configured authentication If you have enabled authentication, toggle this button

3. If the URL and email/password are correct you should get green indicators. Click on "**Go to Login Screen**"

Wizard

Results of auto-detection

✓ Portal: <https://zm.groundtruth.nz>

✓ API: <https://zm.groundtruth.nz/api>

✓ cgi-bin: <https://zm.groundtruth.nz/cgi-bin>

Once auto-detection is over, you could either:

• Go back to previous steps and re-do

• Go to the login screen with these findings auto filled in
